**From CRC Press : Encyclopedia of Pharmaceutical Technology: Volume 6 - Film Coatings and Film---Forming Materials: Evaluation to Generic Drugs and Generic Equivalency (Pharmaceutical Technology Encyclopedia)**  
before purchasing it in order to gage whether or not it would be worth my time, and all praised Encyclopedia of Pharmaceutical Technology: Volume 6 - Film Coatings and Film---Forming Materials: Evaluation to Generic Drugs and Generic Equivalency (Pharmaceutical Technology Encyclopedia):

"The Encyclopedia of Pharmaceutical Technology presents up-to-date and interdisciplinary contributions by leading international authorities in all areas of drugs and drug delivery systems. Major components of the Encyclopedia cover drugs, including physicochemical properties, preformulation, incompatibilities, metabolism, pharmacokinetics, stability, and decomposition...drug delivery systems (and devices), encompassing development, routes of administration, formulation alternatives, dosage form selection, scale up, manufacturing, process validation, bioavailability, and computerization...post-production considerations, ranging from patient compliance and physicians' preferences to national and international agencies; and more. The set will be completed with the publication of the index in Volume 17 in October 1997. "

"Praise for the Encyclopedia. . . . The depth and breadth of coverage. . . make it an excellent source for academic and special libraries supporting research programs in the health sciences, pharmacology, and chemical engineering." --- Pharmacy and Pharmaceutical Sciences . " . a valuable, well presented. . addition to the literature." ---The Pharmaceutical Journal . " . praiseworthy. . The editors and the authors are to be congratulated." ---Pharmaceutical Technology . " . an excellent source for academic and special libraries supporting research programs in the health sciences, pharmacology, and chemical engineering." ---American Reference Books Annual
