From Routledge : Encyclopedia of Post-Colonial Literatures in English (2 Volumes) (Routledge Reference)
before purchasing it in order to gage whether or not it would be worth my time, and all praised Encyclopedia of Post-Colonial Literatures in English (2 Volumes) (Routledge Reference):

Post-Colonial Literatures in English, together with English Literature and American Literature, form one of the three major groupings of literature in English, and, as such, are widely studied around the world. Their significance derives from the richness and variety of experience which they reflect. In two volumes, this "Encyclopedia documents the history and development of this body of work and includes original research relating to the literatures of some 50 countries and territories. In "more than 1,600 entries written by "more than 600 internationally recognized scholars, it explores the effect of the colonial and post-colonial experience on literatures in English worldwide. The StructureThe "Encyclopedia is alphabetically organized and includes three major categories of survey: national entries, which trace the literary and cultural development of a country in terms of its geography, history, economy, and politics; majorsubject and genre entries, which provide a historic perspective on the trends and currents of literary activity in different countries; and biographical and critical entries on individual authors. Special Features* More than 50

countries and regions are covered in "more than 1,600 entries by "more than 600 scholars* Led by a prestigious editorial board, a team of national and regional editors has identified and commissioned entries in each country/area* The comparative nature of entries allows the literature of one country to be interpreted in relation to that of another* Suggestions for further reading* Clearly and incisively written to combine information, interpretation and comparison in language that is concise and jargon-free* Comprehensive index to writers, subjects and works

From Library Journal This encyclopedia loosely refers to writing affected by the process of colonization. Bangladesh, Canada, Hong Kong, India, Malta, and Sri Lanka are only a few of the countries included. While there are other works on individual countries and types of literature, such as the Oxford Companion to Canadian Theater (Oxford Univ. Pr., 1989) or the Reference Guide to Short Fiction (St. James, 1993), no major source compares regarding number of countries or areas of literature covered. Individual writers, national literary developments, and major genres that provide a cross-cultural view are all assessed. Entries on individuals include a short identifier, coverage of works, and biography, and for most a brief bibliography that makes further exploration of little-known authors easier. The entries on the national literary movements and the genres are lengthy and include a bibliography. All entries are signed. With the growing multicultural emphasis on literature, this work is a welcome and needed source. Highly recommended for all undergraduate collections. Neal Wyatt, Mary Washington Coll. Lib., Fredericksburg, Va. Copyright 1994 Reed Business Information, Inc. "...a literary and organizational achievement that will support curricular trends at most campuses... Cross references and a full, text-generated index are a user's delight. Strongly recommended for all libraries with literature collections." -Choice, February 1995 "With the growing multicultural emphasis on literature, this work is a welcome and needed source. Highly recommended for all undergraduate colleges." -Library Journal, October 15, 1994 ... "This major work should find a place in academic and research library collections...." -American Reference Books Annual, 1995 ... "a comprehensive, reliable and up-to-date compendium... The "EPCLE is certain to be an invaluable and standard reference resource for at least the next decade in the field of post-colonial literary studies." -World Literature Today, Winter 1996 About the Author Eugene Benson and Leonard Conolly are both at the University of Guelph, Ontario, Canada.
