Anon : English-Danish and Danish-English Dictionary before purchasing it in order to gage whether or not it would be worth my time, and all praised English-Danish and Danish-English Dictionary:

This one seems pretty thorough (it's actually a Danish-English dictionary, which really doesn't make a whole lot of difference); the only thing I would want, and it might not be in it because it is a Danish-English dictionary, is pronunciation. It makes sense that it isn't in it, since if Danish is your first language, you don't need to know how to pronounce it. :-) It's a really nice size, very compact.0 of 1 people

found the following review helpful. okay, but not expansive enoughBy Ian F Lunderskovit's an okay little dictionary, but when i'm paying that much, i would expect to not have to regularly supplement my reading of an Asterix comic with Google translate.
