Niranjan Jha : English Dictionary of Modern Slang before purchasing it in order to gage whether or not it would be worth my time, and all praised English Dictionary of Modern Slang:

Cromosys Publications English Dictionary of Modern Slang book is an optimal quality guide to the beginners as well as advanced learners of English slang. This is an unmatched and unique book of its kind that guarantees your success

in terms of getting acquainted to the modern usage of slang words in current era. You may have seen many other books on slang but most of them are outdated and of no use because their junk of unacceptable, profane, and bad words creates a nuisance in English. Some lexicographers don't know that there is a difference between slang and nonsense, and everything what is nonsense can not be brought into the social circumference of a language. Considering that point, giving best effort to this venture, this book is created as a profound compilation of new, accepted and nearly acceptable words with their unique established meaning for today's world. Giving utmost attention and care, spending fifteen years in research, we have harbored those words which are meaningful and having a base in the slang world. Being the best reference for the entire globe, this book holds its significance of being dynamic, systemic, lucid and blissful with pure and perfect arrangement of words with their meaning written in the easiest way. This book is highly useful for the people working in communication based industry, media houses, entertainment world, and for those who are teachers, writers, researchers and students. And definitely for those who love languages especially English!
