3 of 3 people found the following review helpful. English Kinyarwanda/Kinyarwanda/English DictionaryBy kanyarwandaThis is a fairly comprehensive English-Kinyarwanda/Kinyarwanda-English dictionary by current

standards. I have found this to be more helpful than any other product of its kind on the market for English readers. Apart from being an amplified vocabulary, it contains useful phrases, and a smattering of basic Kinyarwanda grammar. If you're looking for a Kinyarwanda dictionary, this is the one I would suggest above others at this time, despite some inaccuracies. Since English has recently been declared to be an official language of Rwanda along with Kinyarwanda, other dictionaries will likely appear in the near future. After many months I want to add the following: This book found an appreciative spot in the bibliography of my recently-published Kinyarwanda grammar (A Comprehensive Guide to Kinyarwanda). There is nothing on the market that compares with it. A Comprehensive Guide to Kinyarwanda 0 of 0 people found the following review helpful. More words, please! By Limerick42 I'm using this dictionary to help me do one-on-one English lessons with a Kinyarwanda speaker. On the one hand, it's indispensable because there are so few resources available to help English speakers with Kinyarwanda. On the other hand, it's not very comprehensive. At least 50% of the time when I'm searching for a word, I can't find it. Some of the time I think this is because English words don't always have exact one-word translations in Kinyarwanda. But I have a hard time thinking that all the words I want don't exist. If there's not a one-word translation for simple, common words like "funny" or "expensive" or "weather", maybe the compilers of the dictionary could put them in as phrases. In short, having this dictionary is much better than not having this dictionary. But I wouldn't rely on it as your only resource, if you are trying to learn/use/communicate in Kinyarwanda. 1 of 1 people found the following review helpful. Simple, somewhat accurate. By Customer I have many language books to help talk with a variety of people. This is a basic book and many of the words must have variations because they were not understood. Still a decent purchase.

Kinyarwanda is the native language of Rwanda. The country of Rwanda is quickly becoming a major tourist destination. One can visit the mountain gorillas, Akagera Game Park, and Nyungwe Rain Forest. This dictionary is a useful guide to tourists, as well as, long term residents or citizens. This book includes frequently used phrases, a verb conjugation table, and a pronunciation guide. This is in addition to the English-Kinyarwanda and Kinyarwanda-English translation of over 4000 words.
