I found it to be a very well laid out. The photos were beautiful. I appreciated the introductions to the recipes, and the side bar notes were enlightening. A few pages were dedicated to techniques, and even though I am a fairly accomplished cook, I gained some insight. The best part of the book was (of course) the recipes. The collection was very diverse and unique. The only problem is that I cannot decide what to make first! Honestly!8 of 8 people found the following review helpful. ... it for a handful of recipes that are just fantastic along with the accompanying wisdomBy rhodyfreshThis book is worth it for a handful of

recipes that are just fantastic along with the accompanying wisdom. Like many books by big name celebrity chefs there are some filler recipes that don't seem to make sense, just ignore them. Exceptionally Essential Emeril By T. McJI ordered Essential Emeril for the recipes....but got much more! Excellent tips on cooking equipment utensils, great tips on wet and dry panty stocking, and heart warming stories about many cooking icons, family members, etc. Perhaps that's why the food coming from this book warms down to the soul!

"Thinking back on all of the wonderful people I have learned from and the dishes I have made over the years, I knew that I had to get them all down in one place. This book is it."
