Loved it!By Brian MillsI know there are a lot of things that could be complained about if you want to get picky, there's bound to be SOMEONE who doesn't have a full entry, or their own entry, and it's true, there ARE a few...but SERIOUSLY! The most comprehensive encyclopedia of the Marvel character universe ever undertaken! No longer is your favorite hero or villain reduced to a maximum of one page, now whatever it takes to flesh out the bio, the more that's in there. Rich, imaginative diagrams and spec sheets of just about everything non-living that has an importance in Marvel. Iron Man's armor, the Avengers Mansion, too many to list. Read the whole first edition in a sit down, I remember my brother buying the original series, simply overwhelming, and a MUST OWN for any more than casual Marvel fan. Just got notified that Edition2 is on it's way, I can't wait!!!0 of 0 people found the following review helpful.
