Marco Polo Travel Publishing : Europe Marco Polo Maxi Atlas (Marco Polo Road Atlas) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Europe Marco Polo Maxi Atlas (Marco Polo Road Atlas):

4 of 4 people found the following review helpful. Disappointed By Jeffrey R. I found the atlas to fall quite short of my expectations. The state boundaries are not clearly delineated. The orientation on certain pages was such that critical boundaries and cities were obstructed by the wire binding. Some sections of France and northern Italy occupied the full page, thus affecting perspective when moving from one page to another. On the positive side, the wire binding is convenient, and the water-resistant paper is a good feature when traveling. The atlas should be constructed more along the lines of Rand McNally's atlases. 3 of 3 people found the following review helpful. Not recommended. Too difficult to read. By Dolphingirl This atlas is very hard to read. The maps run over the page and the location letters and numbers

along the page borders are not legible. 2 of 2 people found the following review helpful. Confusing...By LindseyThe pages don't have headings or anything, it doesn't really tell you what country you're looking at either. The pages are full of the map of a strange country with towns that are written in a foreign language. I eventually figured it out but it is still hard to navigate if you're planning a road trip. Overall a decent quality map.

The new Marco Polo Europe Maxi Atlas 2016/17 is the most up-to-date road atlas on the market and features all the key travel routes from the North Cape to Sicily and Lisbon to Cyprus. The ultra-clear cartography provides an excellent overview for the driver.
