This book has all different types of elephants to collect and all kinds of different ones in each section! After finding some of mine in it I was so happy and excited to continue collecting and find ones from the book! I really hope another one will come out because I need another book with even more elephants! :) 0 of 0 people found the following review helpful. not what I expected but

still good

I was expecting more than just pictures of pieces from the authors collection and from other peoples collections. I was hoping for something more in the lines of a normal collectors book. However its still neat and im happy to have it in my collection.

This is the best book you can find on elephant collectibles.. Lots of colour images on each and every thing you can collect on elephants.. i started my hobby of collecting elephant stamps after reading this book.. really amazing.. was eagerly waiting for the volume 2 of this book.. unfortunately author Mr. Michael passed away, he was preparing for the volume two..

This is the first collectibles book that provides images and information about a wide range of elephant collectibles. This compendium has over 900 color images in over 130 categories including: Figurines, Incense Burners, Ashtray, Bookends, Lighters and Paintings. Written by a self-described "obsessed" elephant collector, virtually every major manufacturer and artist, past and recent, has one or more representative pieces here, including: Aronson, Bayre, Bratsoff, Goebel, Lladro, Loetz, Meissen, Nast, Neiman, Passman, Ronson, Royal Doulton, Royal Haeger, Shawnee, Swarovski, Vanderveen, Wedgewood, and many, many more. In addition, relatively unknown works and one-of-a-kind elephants are presented. The breadth is amazing! For elephant collectors this is a book like no other, beautifully illustrated and comprehensive enough to satisfy the most avid pachyderm lover.

I received the book today. It is fabulous!!!! We are so impressed with the variety, great pictures, and wonderful layout!!! -- Kathy Touchtone Buyer September 2002  
I was quite impressed with your book. The amount of work you did on your book is astounding. -- Frank Donadee, Editor: Collector magazine, November, 2002  
Michael, I cannot say enough good things about your book! -- Karil Clark, Buyer September, 2002  
You must see this book for yourself. It is just unbelievable. It is very beautiful and colorful. -- Mitch Brown Editor, Elephant Gazette october, 2002  
From the Publisher- The book makes an excellent premium for fundraising - especially for conservation efforts! - Remember - a portion of the profits from the sale of this book goes toward elephant conservation efforts!  
From the Author  
Plans for additional work: This book is structured for expansion via follow-on printed volumes; work on Volume 2 is already in progress with 5 more categories added so far. Michael plans to create the world's seminal pictorial reference series on elephant collectibles by depicting several thousand items. In addition, Michael is building a website to house 100,000 digital images of elephant collectibles with information and values - the largest such database in the world.  
Conservation of the Elephant  
As I am an elephant and animal lover in general, and believe in conservation of species and habitat, a portion of the proceeds from the sale of this book goes to elephant conservation societies and groups. The Elephant Alliance is one of the groups to receive donations.
