Helped my daughter understand some of the requirements for different fields she was interested in, which she realized might not really be what she thought, and even some new ones she hadn't considered before. I hope they keep this book updated in the future :)0 of 0 people found the following review helpful. Careers not requiring college degreesBy FanI purchased this book for our two high school students who plan on attending college. This book covered a broad range of careers, many of which don't require a college degree which is what I was expecting.

"Exploring Careers: A Young Person's Guide To 1,000 Jobs; An Engaging Approach To Exploring Career Alternatives; * Find jobs that match your interests: Use a simple and intuitive system based on your interests to explore 1,000 job descriptions. * Meet real people in real jobs: Real people tell you what it's like to work in their jobs in interesting "profiles" and "skill samplers." * Get ideas and guidance for your future: Learn about education and training needed, subjects and activities to emphasize in high school and beyond, where to find additional information, and more..."
