This book isn't too long. The writing is kind of small and strains my eyes. However each page takes apart all the different components of a painting and discusses it, the author, the time period, the location, thereby giving you a good understanding of the painting. It looks at paintings from 1434 to 1937.

This is a great review of some of the classics. I enjoy just perusing through a couple of pages at a time. For someone with a lot of art history under their belt, it may not be as exhaustive as you'd like.

I'm studying to be a Docent at our local art museum and I do not have an art or art history background. This book is very helpful! I like how the picture of the painting has little arrows, describing specific details. This gives me a starting point when I look at the same artist or at a painting I either do not understand or do not like. Big book with lots of pictures! Fun.

Taking an original photographic approach to look in detail at certain topics, these four fascinating books provide deeper understanding and richer enjoyment of the worlds of architecture, art, famous artists, and myths and legends.
