Detailed solutions but not as complex as the official GMAT By Jonathan Armstrong This practice book is broken into six sections: Arithmetic, Algebra, Applications, Geometry, Word Problems, and Logic Stats. I would consider it a good starter book but by no means a definitive review for the GMAT. The problems are not as complex or difficult as those on the official GMAT review put out by the Graduate Management Admission Council, but this book should help you work up to it. Their solutions are detailed, which really

helps you understand a problem. For example, here is question 92 on page 107: "A man drove 750 miles at an average speed of 50 miles per hour. How many miles per hour faster would he have to drive in order for the trip to take 5 hours less?" Their answer: Organize all the given information in the following grid:

Original Trip	Modified Trip
D1 = 750m	D2 = 750m
R1 = 50mph	T2 = 15 - 5 = 10hrs
T1 = 750/50 = 15hrs	R2 = 750/10 = 75mph

Rate Difference = $R2 - R1 = 75\text{mph} - 50\text{mph} = 25\text{mph}$

In order to cover the same trip in 5 hours less, the man will have to drive 25mph faster.

If you do get this book, there are at least two errors that I uncovered, so keep this in mind:

Question 20, page 62: In the figure given below, in (triangle)ABC, what is the value of x? They do not indicate that ADB and/or ADC are right angles, which makes it impossible to solve the problem unless we assume that they are right angles and we aren't supposed to assume anything about geometric figures on the GMAT. The solution shows that they are right angles.

Question 20, page 103: "In a course of seven successive days, a certain player wins twice as many board games each day as on the previous day. If in the seven-day period, the player wins a total of 625 games, how many games does the player win on the fifth day?" You aren't going to get an integer answer with this problem because the number should be 635. They write the problem set up as: $x + 2x + 4x + 8x + 16x + 32x + 62x$ (SHOULD BE $64x$) = 625 $125x = 625$ $x = 5$

The solution should be $x + 2x + 4x + 8x + 16x + 32x + 64x = 127x$ $127x = 635$ $x = 635/127 = 5$

By chris_kh This book covers a good spectrum of concepts that are relevant to business math. I was particularly impressed by the detail of the solutions provided after each section (sometimes even too detailed, which isn't a bad thing!) There are a total of a few hundred questions, which, depending on your math proficiency, can be completed in several dedicated hours. I also purchased the Advanced Workbook which extends the complexity of the problems to a more challenging level. Overall, I am very satisfied with the quality of these practice books, and their reasonable price makes them an attractive buy. I would definitely recommend them to anyone looking to extend their grasp on these math concepts.

0 of 0 people found the following review helpful. EZ Solutions Basic Math Workbook is Basic Crap

By Carmen There is no multiple choice answers. Questions are given and left to you to get the correct answer. Solution explanations are crowded. This is not a good way to review for the GMAT. Not happy with my purchase.

EZ - Simplified Solutions The Breakthrough In Test Prep! Leaders in Test Prep Solutions We make it EZ for you! Key Advantages: * User Friendly Step-by-Step Methods * Powerful Test Taking Strategies * Effective Problem Solving Techniques * Time Saving Test Taking Tactics * Easy to Read, Carry, and Manage * Multiple Methods for each Concept * One Stop Test Prep Program * Test Prep Series in Modules * Questions with Detailed Explanations * Global Use for Students Around the World Review Prepare Reinforce Practice Succeed * Review with our EZ comprehensive content knowledge review * Prepare with our EZ effective and efficient methods * Reinforce with our EZ powerful test-taking strategies and shortcuts * Practice with our EZ test-like solved examples, practice exercises, and workbooks Get Smarter Perform Better Score Higher Succeed It s that EZ!!

Math Series of Books: * EZ Arithmetic * EZ Algebra * EZ Applications * EZ Geometry * EZ Word Problems * EZ Logic Stats * EZ Basic Workbook * EZ Advanced Workbook * EZ Math Strategies Module Verbal Series of Books: * EZ Grammar Foundation * EZ Vocabulary Essentials * EZ Reading Comprehension * EZ Writing Skills * EZ Sentence Correction * EZ Critical Reasoning * EZ Basic Workbook * EZ Advanced Workbook Your Personal EZ Tutor: * EZ Strategies * EZ Rules * EZ Facts * EZ Warnings * EZ Shortcuts * EZ Steps * EZ Hints * EZ Exceptions * EZ Tactics * EZ Multiple Methods * EZ Tips * EZ References * EZ Definitions * EZ Summaries * EZ Notes * EZ Spots * EZ Problem Set-Up * EZ Problem Explanations * EZ Solved Examples with Detailed Explanations * EZ Practice Exercise with Detailed Explanations Add-On Options: *EZ 1-2-1 Tutoring over the Phone/Online * EZ 1-2-1 Consultation over the Phone/Online Additional Benefits: * Explore your potential so that you can perform at your optimum level * Our commitment towards your satisfaction: reinventing, redesigning, redefining success * Our books will stimulate, activate, and accelerate your learning process * Everything is highly structured and organized in a systematic manner * Many more solved examples and practice exercise questions with detailed explanations * Remarkable and noticeable improvement in your performance by utilizing newly acquired learning skills Important Note: It is not necessary; however, in order to obtain the best results, we recommend that you make use of our entire set of books. All the books in this series are available for purchase and immediate shipping. Our Guarantee: We are so confident in our books that we are offering the EZ-peace-of-mind-no-hassle guarantee so that you can buy our books with complete confidence. See our website for more details about other terms and conditions about this offer.
