Cary McNeal : Facts That Will Scare the Shit Out of You (Essential Shit) before purchasing it in order to gage whether or not it would be worth my time, and all praised Facts That Will Scare the Shit Out of You (Essential Shit):

Disturbing phenomena are everywhere we turn and this book is jam-packed with facts that will truly horrify you but undoubtedly entertain and educate at the same time. From the ugly truth about food and drink, to the human body exposed to the beastly tales of creatures that outnumber us - no subject is off limits. Did you know there is a sneaky fish that can swim up your genitals? Or that the average human loses 85,000 brain cells each day? If not, read on - there's plenty more where that came from.
