It replaced a large paper back one that I had had for decades. If you like good old family (fancy also) cooking, something you remember your grandmother making it probably will be in this book. Classic recipes often came from product manufacturers. Green bean casserole, tollhouse cookies, Ambrosia, to name just a few (how about Rice Crispy squares). All were printed on the packages of ingredients. This book has at least 1000 recipes that can be looked up by recipe name, product manufacturer name or major ingredient.0 of 0 people found the following review helpful. I've gotten several good recipes out of this bookBy Craig CI've gotten several good recipes out of this book. Most recipes on the internet and in cook books are just so-so. Some of these recipes are great. I realy like "Pork 'N Potato Skillet".0 of 0 people found the following review helpful.
