Thomas H. Ackerman : FBI Careers, 3rd Ed: The Ultimate Guide to Landing a Job as One of America's Finest before purchasing it in order to gage whether or not it would be worth my time, and all praised FBI Careers, 3rd Ed: The Ultimate Guide to Landing a Job as One of America's Finest:

4 of 4 people found the following review helpful. Informative By G.Wonderful at breaking down the basics of what is expected and searched for in a candidate for the FBI. I would have liked to read more about what a person could do to stand out from the next. This is a highly competitive bureau to get into, as the book also states. Given how difficult it is, a chapter in what one could do to become more marketable would have given this book five stars. Regardless of that gap this book is helpful. Knowing the history of the insitution that you're trying to get into is very important, along with a real description of what the job entails. I think people get the misguided belief that they can walk right into the

FBI as a special agent. I too assumed this to a point and this book put a correction to how they operate filling their positions and what the requirements are. If you hold a curiosity about getting into the FBI, the cost of this book is not a waste in my opinion. Just don't buy it new. 1 of 1 people found the following review helpful. Disappointing By Beta I agree with the other reviews that most of the information on this book can be found on the internet. This book will not help you much to get prepared for the test if this is what you are looking for. Very disappointing. 0 of 0 people found the following review helpful. Great book! By MN Lots of information and tips. Great book!

This book is a definitive guide to the organization's rigorous selection process reveals what it takes to succeed in landing a job as special agent as well as professional support personnel.
