Is that all you get !!!By michael b cole Good stuff, not enough detail, overpriced, should be combined with the O M manual I was hoping for more0 of 0 people found the following review helpful. Three StarsBy Refus T. Caldwell, Jr. Good1 of 1 people found the following review helpful. Must tool for the tool boxBy CD WellsThe Owner's manual will tell you the what and when of the maintenance schedule, but you need one of these to do it right. You know you need to grease a bearing, but which one is it exactly and how do you get to it? This shows and tells the breakdown of most assemblies. The next step up from this is the Dealer's Shop Manual

and, while it is more comprehensive, it lacks the exploded drawings. This will get your restoration or operating library started.
