transition to a new life. By Sia M. It's a funny thing in a world of choices we actually experience less happiness than we would expect. Choices don't make us happier, they actually make us more stressed out. This is commonly called the "paradox of choice" and we are living in the era of choice. Consequently, finding your passion becomes harder and harder when there are million things that we could potentially be passionate about. Cassandra breaks down that process into a series of steps and becomes a "virtual coach". This book is a journey into finding your passion that won't provide it for you, but rather help you discover it by yourself. Written in an easily accessible format with excerpts from some of my favorite authors, I would recommend this book to anyone who is wanting to transition to a new career or potentially re-evaluate their own. Great read. 3 of 3 people found the following review helpful. Discover A Life of Passion By S. Joines The one main thing I always wished for my children was passion: passion in everything they did. This author validates my belief that if you have passion in what you are doing, you will find the job you love, and also live the life you love. I think the book is right on target. Ms Gaisford does say that it will not happen instantly, but by following her advice in the book, it will happen. But, she says, be prepared because pursuing passion can result in a greater commitment, harder work, and even more sacrifice. This is a must read for anyone who is bored with his/her life and aches for the type of change that makes him/her enjoy life with passion. 1 of 1 people found the following review helpful. Pay your bills at a job you love! By H. Farrelly Work with passion and still pay the bills-really? The author truly believes so and after reading her book I find myself believing too. It is a really quick read and I love the many quotes in it. My favourite-Passion cannot be forced. She broaches interesting ideas like using your anger to benefit others and bring positive changes. There is a passion workbook you can also download to help you along the way. Don't let your fears hold you back.
