Anna Claybourne : First Animal Encyclopedia Seas and Oceans before purchasing it in order to gage whether or not it would be worth my time, and all praised First Animal Encyclopedia Seas and Oceans:

Learn, explore and be amazed by creatures big and small in this amazing introduction to sea and ocean life.From giant whales to slithering sea snakes discover how creatures that spend their lives submerged by the vast seas and oceans around the world hunt for food, raise their young or survive in temperatures of nearly 350 degrees centigrade, and much much more!Packed with breath taking photography and fun facts, First Animal Encyclopedia: Seas and Oceans is a perfect first introduction to sea and ocean life around the world.

makes excellent use of colourful photographs which explain and expand on the topics. Parents in Touch About the Author Anna Claybourne is the author of numerous books on the natural world for young readers, including 100 Most Dangerous Things on the Planet, which was shortlisted for Blue Peter Best Book With Facts 2009, Usborne Internet-Linked Encyclopedia of Planet Earth, the Survival Skills Handbook and many more.
