A must have book for home owners By gcunningham An essential resource for gardeners and home owners in central Florida. It is a one source for for most all of your garden questions and home landscape information. The book is written by a long time Florida Extension agent for Orange County Florida. Mr. MacCubbin has written several books and has clear easy to understand writing style . Even after retiring from the Extension Service he still dispenses essential gardening information for the central Florida gardener and home owner . He writes for the Florida Gardening Magazine and for the local newspaper. I cannot imagine a more knowledgeable source about lawns and landscapes for central Florida.
