National Geographic Maps - Reference : France, Belgium, and The Netherlands Classic [Tubed] (National Geographic Reference Map) before purchasing it in order to gage whether or not it would be worth my time, and all praised France, Belgium, and The Netherlands Classic [Tubed] (National Geographic Reference Map):

0 of 0 people found the following review helpful. The map itself is what I expected and would recommend it. I'm giving three stars becauseBy CustomerThe map itself is what I expected and would recommend it. I'm giving three stars becausealthough it came I a tube, the map was not in very good shape before it was put into the tube. I kept it anyway as it was needed immediately and I didn't have time for an exchange.0 of 0 people found the following review helpful. It suites the purpose but is not easy to readBy Jerold D. TierneyIt suites the purpose but is not easy to read. Helpful for planning but you really need additional maps for serious trip planning other than tours.0 of 0 people found

the following review helpful. Very clear and detailed map, looks great on my wall. By Erik Mabry I also bought the Germany Classic poster and I really love these. Very detailed and clear and look great on my wall. Will continue to buy these as I visit the countries.

National Geographic's Classic style political map of France, Belgium, and The Netherlands features clearly defined international boundaries, thousands of place names, waterbodies, airports, major highways and roads, national parks, and much more. Also shown are the region's updated infrastructures, including major oil fields and pipelines; high-speed passenger railway lines; canals; and ferry routes. The tasteful color palette, shaded relief, and bathymetric data make this map as attractive as it is functional. Luxembourg and portions of the United Kingdom, Germany, Switzerland, Spain, and Italy are shown as well. The map is packaged in a two inch diameter clear plastic tube. The tube has a decorative label showing a thumbnail of the map with dimensions and other pertinent information. Map Scale = 1:1,955,000 Sheet Size = 23.5" x 30.25"

About the Author Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
