BrownNow THIS is a French home study worth every cent! With DVDs, a coordinating text and a workbook, learning just happens. The DVD content was developed by knowledgeable educators. There's instructional classroom time. An entertaining video of French people going through daily life to reinforce what was taught in class. Other French media is also included to add cultural interest. I've tried several other means of learning the language. This one is superb! 3 of 3 people found the following review helpful. Since it was first published, French in Action: A Beginning Course in Language and Culture The Capretz Method has been widely recognized in the field as a model for video-based foreign-language instructional materials. The third edition has been revised by Pierre Capretz and Barry Lydgate and includes new, contemporary illustrations throughout and more-relevant information for today's students in the Documents sections of each lesson. A completely new feature is a journal by the popular character Marie-Laure, who observes and humorously comments on the political, cultural, and technological changes in the world between 1985 and today. The new edition also incorporates more content about the entire Francophone world. In use by hundreds of colleges, universities, and high schools, French in Action remains a powerful educational resource, and the third edition updates the course for a new generation of learners.

"Unique in its magnitude, versatility, and state-of-the-art method. . . . A real breakthrough." Antoinette Shewmake, French "The closest thing to a total immersion in language and culture short of a trip to France. . . . Capretz and his colleagues have set a new standard for foreign language teaching materials." Roger Neff, Modern Language Journal
