It didn't cover any of the topics wanted to learn about my phone. It was such a "comprehensive" and thin guide that it could not possibly contain all the features and details of the new phone. I learned more by going on line and looking up the actual guide for the phone. I was very disappointed with this purchase.0 of 0 people found the following review helpful. If I had not had good service from otherwise, I'd be tempted to not buy anything from again. John Gerth0 of 0 people found the following review helpful. Don't waste on thisBy K.
