Donald Trump, Eddie Rezek : Get That Job: Your Total Plan to Land the Job of Your Dreams (Audio Business Course) before purchasing it in order to gage whether or not it would be worth my time, and all praised Get That Job: Your Total Plan to Land the Job of Your Dreams (Audio Business Course):

5 of 5 people found the following review helpful. It WORKED, 4 job offers and a \$4000 negotiated increaseBy AmandaI have been looking for a job for more than 2 months. I thought I was good at interviewing but the course taught me that I need to promote myself not just answer questions. I like the way Eddie says it like it is and did not beat around the bush like some other job readiness materials I came across. My mom bought me the Get That Job course after I started to get depressed and frustrated. I had no idea I could negotiate without worrying what they would do or if they would reject me. Wow... it's a really good course and I ended up getting 4 job offers and after the negotiation process ended up going up \$4000 more! Oh, the course is fun and taught me how to promote myself. I really liked the success portfolio section, the manager i interviewed with was really impressed.
