LearningExpress Editors : GMAT Exam Success in Only 4 Steps before purchasing it in order to gage whether or not it would be worth my time, and all praised GMAT Exam Success in Only 4 Steps:

2 of 2 people found the following review helpful. GMAT Exam Success in Only 4 StepsBy S. SavovI just got through the verbal review sections. The book is very thourough, insightful and easy to follow. I feel more confident after having read through the verbal chapters. i also bought the Kaplan 2007-2008 Comprehensive review - I have hard time following it and remembering the material (twice I got headaches just going through it). I hope this feed back helps a little. Best of luck!

GMAT Exam Success in Only 4 Steps is a potent GMAT study tool. Test takers can learn effective problem-solving strategies tailored to each type of math and verbal question found on the GMAT, as well as how to tackle tough analytical essay prompts. Each of the book's many sections is comprised of complete lessons on how to handle all 7

question types found on the official exam, along with over 250 practice questions and essay prompts. There are also complete and detailed answer explanations. The essential topics of time management and preparing a detailed, realistic study plan are covered as well. Straightforward advice from the pros covers topics like finding time to study, capitalizing on prime study time between work, school, and other time-consuming obligations, and smart methods for getting the most out of each study session.
