A great book that could be used for everyday sentence correction or to study for the GMAT. By Sheng This particular strategy guide has helped me out a lot in the course of studying for the GMAT. Not only can it be used to study for the GMAT, I believe that it is a great sentence correction book by itself. I've read other sentence correction books in the past, just to brush up on punctuation and grammar, but none of them were ever as descriptive as this. The chapters covers all the bases and simplified down the concept for you to understand. Also, if you do purchase this book, remember to email them on their main website the order number. Doing this will qualify you for
