I had a stack of them out on this last trip through the southwest. Its not mine if I haven't spilled coffee on it yet apparently well knocked a cup over right on the maps at first I freaked out but after a quick trying and leaving in the sun the maps weren't even phased.As for the map itself, I carry them on all my hikes and haven't been disappointed when i have to use them on the trails. Another thing I use them for is planning my photography shots, it gives me a bigger picture of everything so I know what the terrain looks like, what direction each "viewpoint" is before I ever get to the parks2 of 2 people found the following review helpful. accurate, reliable mapBy retdocReliable, weatherproof, accurate map for the central core of the park. Easy to carry and holds up to repeated use. A sidebar indicating basic geologic cross-sections as in other guides/maps would be very useful as a quick reference while going up and down through the layers.1 of 1 people found the following review helpful. Quintessential GC mapBy Rachel GoldschmidEasy to read topo map with all the trails and campsites marked. Must have for planning a backcountry trip. Buy a guidebook along with it.

Waterproof Tear-Resistant Topographic MapExplore the uniquely inspiring and wondrous landscape of the Grand Canyon with National Geographic's Trails Illustrated map of Grand Canyon National Park, North and South Rims. Expertly researched and created in partnership with local land management agencies, this map is designed to meet the needs of outdoor enthusiasts with unmatched detail of the heart of the park. Key areas of interest featured on this map include Colorado River miles 60-98, North and South Rim visitor centers, Grand Canyon Village, Tusayan, Bright Angel Trail (plus elevation profile), West Rim Trail, Kaibab Trail, Arizona Trail, and more. With miles of mapped trails in some of the most breathtaking scenery in the entire country, the Grand Canyon North and South Rims map can guide you off the beaten path and back again. Designed with a wide range of visitors in mind, this map features detailed and easy to read trails, accurate road network, campgrounds, scenic overlooks and points of interests, visitor centers and facilities, color coded bus stops with routes, plus park regulations, backcountry use areas, and contact information for local agencies. The map base includes contour lines and elevations for summits, passes and major lakes. Every Trails Illustrated map is printed on "Backcountry Tough" waterproof, tear-resistant paper. A full UTM grid is printed on the map to aid with GPS navigation. Other features found on this map include: Grand Canyon National Park, Kaibab National Forest, Little Colorado River, Marble Canyon. Map Scale = 1:50,000 Sheet Size = 25.5" x 37.75" Folded Size = 4.25" x 9.25"

About the AuthorFounded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
