National Geographic Maps - Reference : Greece Classic [Tubed] (National Geographic Reference Map) before purchasing it in order to gage whether or not it would be worth my time, and all praised Greece Classic [Tubed] (National Geographic Reference Map):

0 of 0 people found the following review helpful. Arrived damagedBy elizabeth pogorMap arrived wrinkled. Seller refunded 30%. Good gesture but a new map is really what I needed. For the price it was small and thin. No key to find cities.0 of 0 people found the following review helpful. Five StarsBy MusicMonster44This is a well made map that is great for familiarizing one's self with Greece and it's larger islands.1 of 1 people found the following review helpful. Great map, good size detail and qualityBy Nicholas ManolelisFantastic quality and good size. I use it to teach with but I could see someone putting it in a frame and hanging it in their home.

National Geographic's wall map of Greece and the Aegean is one of the largest and most detailed maps of the area. The signature Classic style design uses a bright, easy-to-read color palette and stunning shaded relief. Coverage includes mainland Greece along with areas of bordering Albania, Macedonia, Bulgaria and Turkey. Surrounding waterways, like the Aegean and Ionian Seas are shown with depth curves and soundings along with hundreds of islands, including Crete, Rhodes and Euboea. Also shown are thousands of place names, accurate boundaries, national parks, ruins and major infrastructure networks such as roads, highways, airports, railroads, canals and ferry routes. The map is packaged in a two inch diameter clear plastic tube. The tube has a decorative label showing a thumbnail of the map with dimensions and other pertinent information. Map Scale = 1:1,494,000Sheet Size = 30.25" x 23.5"

About the AuthorFounded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking.Today, National Geographic Maps continues this mission by creating the world's best wall maps,

recreation maps, atlases, and globes which inspire people to care about and explore their world.
