**Laverne Ludden, Laurence Shatkin : Guide for Occupational Exploration** before purchasing it in order to gage whether or not it would be worth my time, and all praised Guide for Occupational Exploration:

0 of 0 people found the following review helpful. helping outBy Charles KupelianTwo things Ive learned in life are as follows one you are part of the problem or your part of the solution. Two you can give a man a fish and feed him for a day OR you can teach a man to fish and feed him for a life time. Ive given a lot of these books to the juvenile court for the councilors, and took some to the prisons there should be only two things allowed in their cells one a Bible and the other is an occupational hand book. Once they have seen this they cant complane.Ive done something for God and humanity.0 of 0 people found the following review helpful. Good career resourceBy Nancy A. FergusonExcellent resource for anyone wanting to find out about different careers.

Based on 16 U.S. Department of Education clusters. Interesting questions and 900+ job descriptions emphasize skills,

education, earnings, and more.

"Individuals investigating careers will find it very usable. Much needed . . . An essential resource." -- Joseph E. Havranek, Ed.D., Bowling Green State University  
About the Author  
Michael Farr is a best-selling author of more than 20 books, multi-award winner, and founder of JIST Publishing. Farr was instrumental in the self-directed career planning and job search movement, and he continues to be recognized as an expert in the field of job search and career building. Farr's techniques for a better and faster job search have been adopted by job search and career placement programs throughout the United States. He has trained more than 6,000 instructors and trainers in numerous workshops and presentations across the United States and Canada. Laurence Shatkin, Ph.D., is one of the U.S.'s leading occupational experts and appears regularly on national news programs and in major print publications to share his expertise about trends in the world of work. He is a Senior Product Developer at JIST Publishing, has 30 years of experience in the career information field, and is an award-winning career information systems developer.
