0 of 0 people found the following review helpful. Horrible book By A Customer The books by this publisher are just plain horrible They are simply advertisements from the business schools. There are few good business schools displayed in the book. It is not the least objective because schools only pay to be published in it. I called the president of the company and he confirmed this with me only the schools who pay them get published in it. You will not find good business schools like Indiana University at Bloomington, University of North Carolina at Chapel Hill etc.. DO NOT BUY any books from analogous with this one ie: Best graduate business programs etc...
