Yoshlyuki Tomino, Hajime Yodate : Gundam Technical Manual #5: G-Gundam before purchasing it in order to gage whether or not it would be worth my time, and all praised Gundam Technical Manual #5: G-Gundam:

1 of 1 people found the following review helpful. The book is great for all those who love Gundam and anime in general.By C. GraceyThe only critic is on the shipper, as there was a slight rip on the cover of the book, a bent page and a small stain in the book itself. But I attribute that to the original owner...which may infact be the shipper themselves. However, the defects did not detract from the quality of the publication itself.0 of 0 people found the following review helpful. Brilliant book for any MS Gundam fanBy romeoteknikThis book give details on the mobile suits, mobile armor, vehicles, characters, and technology featured in G-Gundam series. If you are a fan of MS

Gundam, then this book is for you. 0 of 0 people found the following review helpful. Two Stars By genesis The book was missing 8 pages.

In the distant future, man has found a new way to settle disputes between nations- one-on-one Gundam battles with the Earth as the arena! But this 13th annual Gundam battle is different from the rest because a new nanotechnological weapon has entered the fray. Gundam pilot Domon Kashu has joined the tournament, not only to win the gold, but also to find and eliminate this new "Devil Gundam." G-Gundam Technical Manual is the ultimate guide to the newest Gundam series in America.
