Bill Gibson : Hal Leonard Recording Method Complete Series 6-Pack before purchasing it in order to gage whether or not it would be worth my time, and all praised Hal Leonard Recording Method Complete Series 6-Pack:

2 of 5 people found the following review helpful. Not what I wanted By Mark Kalsho I bought the complete set thinking its a complete set. When I received the product it was not boxed the way they said it would be but all books were there. It also said they would be new, but the books had creases all over them. If I knew the books were not gonna come in a box i would never have bought them. I gave the seller two stars because I didn't recieve what I paid for.

The Hal Leonard Recording Method is now available as a complete six-book/six-DVD set! This is the first-ever

professional multi-media recording method to take readers from the beginning of the signal path to the final master mix. The series provides: easy-to-understand explanations of the entire recording process, addressing both classic equipment and the latest technology; full-color photos and illustrations; dozens of audio and video examples; and a completely up-to-date companion website at www.halleonardrecordingmethod.com. Attractively packaged in a sturdy corrugated container for easy access on a shelf.
