The Handbook of Ancient Greek and Roman Coins Handy and worth the price!By DishwasherSafeGreat value for the low price!Just remember that this is just a general overview of Greek and Roman coins. It does have very nice BW appropriately sized photos of many coins, with very basic descriptions.1 of 1 people found the following review helpful. Four StarsBy Rockhound MikeGood basic reference - overall beginning collector level.2 of 2 people found the following review helpful. Handbook of Ancient Greek and Roman Coins: An Official Whitman GuidebookBy kurt seraphineThis is a very interesting book on Greek and Roman Coins. For a person developing an interest in ancient coins this is a well laid out and readable book. It appears that about 75% of the ancient roman leaders were killed by their wives, brothers or body guards.It is the type of book that you will spend many hours thumbing through the pages.
