For some reason, she is always able to project a cool, calm and thoughtful demeanor which, honestly, takes the edge of a crazy day better than doing yoga. Her recipes are *dope*, precise and reliable. I'm addicted (shhh i also have her other two books-- everyday harumi and harumi's japanese cooking) 1 of 1 people found the following review helpful. Recommend as First Purchase By George Coutts I saw Harumi's show on Japanese TV on my cable channel and was surprised to see

she's published quite a few books. I picked this one as my first and am very pleased with the information, high quality pictures, clear and concise directions and most importantly, the fulfillment of the book's purpose: Japanese cooking made simple and fast. You cannot mess these dishes up and they are delicious. 3 of 3 people found the following review helpful. Excellent recipes, but ingredients list lacksBy windsun33The recipes are excellent, as are some of the cooking tips. My only reason for not giving it 5 stars was because I think it could have been improved by going a little deeper into the actual ingredients, some of which will not be familiar to Western users.
