They are high quality and super detailed. I love geography and am a map collector and I highly recommend them6 of 6 people found the following review helpful. Hawaii Atlas GazetteerBy Michael CampbellThis particular issue had very old information. A lack of

information and Road names and numbers. It is understandable that some roads disappear when there is an eruption.....but.....other roads were drawn incorrectly and out of place. These are roads not affected by the volcano, ocean and etc. These roads are over 150 years old. The layout of this particular Gazetter did not come up as the same quality as my own state gazeter. Some of the roads are in "Hawaiian" and were misspelled.This Atlas is/was not worth the cost. You can get local road maps from convenience stores in Hawaii much more accurate.0 of 0 people found the following review helpful. Five StarsBy Edward Perezi did not get lost!!!
