Ora Band : Hebrew: A Language Course Level One before purchasing it in order to gauge whether or not it would be worth my time, and all praised Hebrew: A Language Course Level One:

2 of 2 people found the following review helpful. Good Material but with some flaws
By Ralph
Based on my experience in buying tons on Hebrew methods, I will say that this volume 1 has some qualities and defaults. First, the advantages: future buyers should know that the series is designed to be used mainly in a classroom rather than self-study; therefore, you get all the qualities a course. In terms of grammar and vocabulary, the explanations are precise and easy to understand. I think once you finish the 3 volumes, you'll be able to acquire a great grammar and vocabulary base. Second the disadvantages: maybe the fact that we do not have the answers to the exercises so for someone who does not know how to read, speak, or write in Hebrew even level 1, it would be challenging. You need to have a beginner level leaning towards intermediate one in order to complete the series. Also, I think the editor should have

updated the texts because sometimes the humor that the author wanted to give turns out flat. They should have used texts that connect better with the reader. I do not regret my purchase because I know that I'll get a good base in order to tackle the other books I have. 1 of 1 people found the following review helpful. Hebrew Level One should follow Primer By Doramariphx* Difficult to do on your own if you are not a native speaker* Not enough practice drills when concepts presented* Wish there was a workbook with extra drill practices* Text print is very small for me to read* I am currently taking a small group study, (but not with this text) and I also use Rosetta Stone* Should probably take a conversational Hebrew class first or currently* Recommend you do the Primer first, which I did with a small group study* It is a good text.* Good Format... good diagrams* English explanations* I like it, but it is challenging... 0 of 0 people found the following review helpful. These are excellent books. By Rbw These are excellent books.
