**Nadja Rizzuti : Hide this Italian Book** before purchasing it in order to gage whether or not it would be worth my time, and all praised Hide this Italian Book:

0 of 0 people found the following review helpful. Another in a great series of street language books.By Randolph W. LievertzThis is another in a series of books that consists of one in each language. I find them particulary useful to learn the street language and to recognize the occasional insult thrown my way. This book also helps if you visit a pub or bar, especially if you meet a potential lover there (or elsewhere). This book definitely helps you to round out your

language skills and go above beyond the "proper" words you learn while studying or reviewing your new language.30 of 30 people found the following review helpful. Fantastic!By OutlawPoetThis is indeed a fantastic little book. It contains all the colloquial Italian you could need for a short visit or even a long stay in Italy. I just returned from a language school in Rome and I wish I had this book with me. It's Italian as the natives speak it - not as they teach you in school. I found a lot of phrases I had to discover on my own from Italian friends.One warning - If you are a complete beginner, this book does not contain pronunciation guides for the words/phrases. You'll want to supplement this with a beginning Italian text that includes basic pronunciation. Otherwise, this book is a dream!0 of 0 people found the following review helpful. I love all of the "Hide This" booksBy Shannon QuinnI love all of the "Hide This" books, and the Italian version was no exception. I gave this to my brother, who is in High School, has a birthday present, and he loved it, because he is in his 4th year of Italian. This way, he gets to learn slang for when he studied abroad.

It's not the Italian you learned in high school. Learn the lingo on love, sex, extreme sports, fashion, gossip, partying and much more. Also exposed in "Hide This Book" are hilarious mishaps, social trends, and cool cultural features. Thermometers indicate how hot language is, so you know when an expression is totally offensive, completely inappropriate and downright nasty! Hear the foreign language online, or download the audio to you iPod or MP3 player. Entertaining as well as enlightening, this is one language reference you'll enjoy reading cover to cover.

Things you might really want to say and need to say hip, young, and irreverent. Chicago Tribune Online an utter delight for the hip traveler. New York Daily News
