**Berlitz Publishing : Hide This Spanish Book (Hide This Book)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Hide This Spanish Book (Hide This Book):

0 of 0 people found the following review helpful. Sweet!By Yesenia RiveraI bought the Hide This Italian Book, and I

enjoyed reading it. Lately my family has been pestering me about learning Spanish and this book is helping me out! Now, it is important to learn like the dates, days of the week, numbers, weather, and all the other stuff you learn in Spanish class, but let's face it, when you go to another country, most likely, you're going to enjoy yourself and possibly make some new friends! Knowing Spanish by the book can be useful, but also knowing relaxed and hanging out terms in Spanish will really help you out in the long run especially if you plan on meeting a special someone, which this book does go over. Seriously, hide this book from family and teachers! Your friends will think it's cool (or think you're weird depending on the friend), and it'll seriously help you on how to speak proper 'slang' Spanish! 3 of 3 people found the following review helpful. The dark side revealed! By C. Fladager First off, if you are offended by vulgarity or terms that refer to sexuality or sexual situations, then pass this one up. OK, now if your not a saint, then i would say this is a good, realistic book, that teaches new things but also lets you see the full prism of spanish conversation. I found it helpful in the parts about online slang terms and such. I think it is good to know some of these words even though you may choose not to use them. So that atleast if you're experiencing them you know what there saying to or about you. overall good book, will bring a smile or a luagh at times, for the price i paid it was worth the try out. 0 of 0 people found the following review helpful. Teehee By Lauren Michelle Stafford Great book for intermediate spanish. All the dirty words and nasty phrases you could ever want to know. everything from picking up women to boogers.

It's not the Spanish you learned in school. Learn the lingo on: Love, Sex, Extreme Sports, Video Games, Fashion, Body and Gross Bodily Functions, Internet, Text Messaging, Gossip, Entertainment, and Partying. Also exposed in Hide This Book are hilarious language mishaps, social trends, and cool cultural features. Thermometers indicate how hot language is, so you know when an expression is totally offensive, completely inappropriate and downright nasty! Hear the foreign language online, or download the audio to you iPod or MP3 player. Entertaining as well as enlightening, this is one language reference you'll enjoy reading cover-to-cover.

Things you might really want to say and need to say hip, young, and irreverent. Chicago Tribune Online An utter delight for the hip traveler. New York Daily News
