**Kevin Forbes : Home Brewing: A Practical Guide To Crafting Your Own Beer, Wine And Cider** before purchasing it in order to gage whether or not it would be worth my time, and all praised Home Brewing: A Practical Guide To Crafting Your Own Beer, Wine And Cider:

0 of 0 people found the following review helpful. Five StarsBy sailorNew hobby.2 of 3 people found the following review helpful. Of no valueBy B. EinhornI can get better information by searching the internet.This is a very general book that has no value to anyone.The Mead section is very small, doesn't mention staggered nutrient additions, and is very basic.The one IPA recipe I looked at mentioned Crystal malt. What type of Crystal? 60? 10? 120?The small part on hard cider had even less information.No reason to own it or even read through it.

This book provides a practical guide to fun and successful home brewing, with detailed information on the brewing process, equipment, ingredients and techniques.

This basic guide to home brewing beer, wine, and cider provides step-by-step instructions for getting started with this rewarding hobby. The work covers beer, wine, mead, sloe gins and infusions and non-alcoholic soft-drinks, and each section discusses materials and supplies, processes, and specific variations. Chapters include detailed recipes for several examples of each type of brew. A glossary of brewing terms is included. About the Author Kevin Forbes lives in East Sussex in the United Kingdom and is an Royal Horticultural Society qualified gardener. He has a wide knowledge of horticulture and the countryside, and has skills in a number of rural hobbies. He puts down his love of gardening and nature to his mother, whose enthusiasm has rubbed off on him. He is currently running his own gardening and property maintenance company.
