It shows a lot of the cars, but only prices them in excellent condition. It also does not show the different colors that they may have come in. 3 of 3 people found the following review helpful. Fun book for our grandson By Dottie Macomber While this made a delightful gift for our 9-year-old grandson, it probably wouldn't satisfy die-hard collectors. As many price guides, it is only that: a guide. However, our grandson was happy to see that he had some of the cars listed in the book, although his are certainly not in collectible condition as most were bought very used at yard sales. 0 of 0 people found the following review helpful. Kinda small in size By Frederick Willis Smaller in size than I

thought it would be, but tells me alot
