Randi Hacker : How to Live Green, Cheap Happy before purchasing it in order to gage whether or not it would be worth my time, and all praised How to Live Green, Cheap Happy:

15 of 17 people found the following review helpful. This book is worth your time.By A CustomerThis book is interesting to put it in one word. It offers many ideas to help people interested in a lifestyle of saving money and being eco-friendly. Some of the suggestions are practical. For example, going to thrift stores to buy clothing. Also a chapter discusses how to grow your own food for economical and ecological reasons. I think one of the best Chapters of the book is Chapter 9. It is called "Clean Enough." This chapter discusses Americans' fetish with anti-bacterial products.

However, I found some of the tips in this book to be obscure for somebody like me (21-year-old college student with a part-time job). One of these tips was to wash your hair once every three days. That would create a problem for myself because I am judged upon my appearance where I work. I also dislike to let my hair get oily and greasy looking. I think probably the worst thing about this book is the tip on how to make your own sanitary napkins. I can understand the reasoning behind this idea but it is hardly practical for somebody like me. That part kind of made me sick. If EVERYONE on the planet followed the guidelines in this book the world would be cleaner and perhaps more enjoyable. Though, I am not sure if everyone in the world would find these suggestions practical and worth the time. If you are interested in reading the book then buy it. I enjoyed reading it, and it did enlighten me. 7 of 17 people found the following review helpful. **DO NOT BUY** By Samer This book offers some insightful information although i don't think the value is really worth it. Here is a suggestion , go to the library and try to find it there. If you want to be cheap. Start here. **DO NOT BUY THIS BOOK. DO NOT EVEN BUY IT USED!!** The reason you can't save money is because of poor investments like this one. Stay away. If you want to know why you can't save money ...it's because of poor choices like this one
