This new edition has additional content which makes it a very complete learning guide. These lessons were my private teacher when I first picked the guitar ~20 years ago... totally worth it.0 of 2 people found the following review helpful. Not a cohesive book. By Retired at 55How to play Rock Guitar assumes that you already know how to do almost everything else guitarwise. The styles and techniques are all over the

map and I feel like I was overcharged for this book that I will soon be donating to Goodwill.
