Yet another winner by Danny InyBy Veronica Rose "How to quit your job the right way" is yet another clear-written, easy-to-follow guide by Danny Iny (and Jim Hopkinson). After being a follower of Mr Iny's work for a while now, he is one of my rare 'automatic buy' authors. He has never failed to deliver user-friendly guides, full of actionable suggestions, realistic timeframes and achievable results, without 'fluff', hype or marketing sleaze. This book 100% delivers on its promises, as expected.0 of 0 people found the following review helpful. This well written easy to read book is full of thoughtful touchesBy FranBThis well written easy to read book is full of thoughtful touches. Well organized and carefully thought out, the authors have produced a good guide to making a major life change. To leave the pay check world and go into business for oneself can be overwhelming. And very dangerous. These guides point out the pitfalls and steer one around them. They remove unrealistic "pie in the sky" and force a good look at reality, but with a healthy dose of hope and encouragement.Recommend this to folks young or old who are starting to think about getting into business for themselves. You won't spend your life thinking it over, but you also won't be jumping into the unknown without a parachute!0 of 0 people found the following review helpful. Helpful Book With Practical AdviceBy Teresa MorrisThis book really helped me focus my goals and create a plan for quitting my job and going full time as a writer/blogger. I especially appreciated the bonuses that came with it. The spreadsheet and Venn diagram were especially helpful.

Leave Your Soul-Sucking Job Once and for All! But be smart about it. Well show you how. A few years back, a disgruntled flight attendant got on the planes public address system, shouted some profanities, and exclaimed I Quit! He then grabbed 2 beers from the beverage cart, deployed the emergency evacuation slide, and dramatically exited the plane in style. While it likely felt good in the moment and made a splash on social media, he faced a host of negative consequences, including arrest and a \$10,000 fine. This was certainly a memorable way to quit, but if youre looking for a more fulfilling career and life, its not the right way to do it. This third book in Mirasees Business Reimagined series will teach you how to intelligently get out of a job you hate (or just dont love) and transition smoothly into a life with more freedom, money, and fulfillment. With a simple-but-powerful five-step plan and a collection of real-life stories of people who sought their dream jobs by leaving unsatisfying careers, How To Quit Your Job provides everything you need to prepare for your grand exit. Well get you out of the rut youre in, help you focus on what you want to do, and lead you right up to quitting day. From there, youll be ready to fly.

About the AuthorDanny Iny (@DannyIny) is the founder of Mirasee, host of the Business Reimagined podcast, best-selling author of Engagement from Scratch!, The Audience Revolution, and Teach and Grow Rich, and creator of several successful online training programs, which have graduated over 4,000 values-driven online entrepreneurs.
