2 of 2 people found the following review helpful. Interview QuestionsBy Martin MirandaAlthough the book covers various scenarios and topics. It lacks questions and possible problems that could happen in version 6.0 and above.I thought it would have more updated information that would be useful when interviewing potential candidates.I believe a newer version with updated material would be better.But regardless it was good information.1 of 1 people found the following review helpful. Absolute waste of money!!!By Anthony D. JacksonThis is an unstructured list of questions from the FAQ sections of websites. There is absolutely no insight to be gained from it.

The Ultimate Reference Learning Guide for the IBM Professional!
