The program presents and treats the cultures of the Hispanic world in ways that are both appealing and appropriate for college students and simultaneously maintains reasonable expectations for their understanding and productive use of grammatical concepts and structures. Communicative and rich in cultural content, *Identidades* is engaging, supports the language-learning process, and prepares and encourages students to continue their exploration of the Spanish language and Hispanic cultures beyond the second year. Teaching Learning Experience Communicative and Content-Based Approach - The goal of the program is to ensure that intermediate level Spanish learners build their language skills in rich communicative and cultural contexts. Communicative activities found throughout the program draw learners to the material presented and help them apply the content to their own experiences.
